

Company Formations Package 1

FIRST BASE

Our 'First Base' package is designed with the incorporation process in mind. None of the post-incorporation requirements are in place, except the appointment of the new officers. We provide the usual name checking service for proposed names. Once the name option is established our standard Memorandum and Articles of Association are provided with a general commercial objects clause and an authorised share capital of £1000. The final package meets the requirements for basic corporate compliance. All post-incorporation statutory matters must be completed on receipt.

We also have a selection of readymade companies available for immediate transfer.
